ENTERPRISE AI

AI projects stall before they start.

The problem isn't capability.
It's context.

Aiden AI

THE REALITY

Your enterprise knowledge is everywhere.

Docs. Schemas. Recordings. Figma. Code.
All disconnected.

THE SHIFT

From fragmented data to AI-ready intelligence.

Aiden Discover ingests everything.
Builds context. Makes it usable.

01 — INGEST

Every source. Every format. Connected.

Documents, recordings, schemas, Figma, URLs, logs — automatically.

02

02 — UNDERSTAND

Not just indexed. Semantically understood.

Relationships, dependencies, and business meaning — captured.

03 — REASON

Intelligence at enterprise scale.

Insights across millions of documents and data points. In real time.

04

04 — ACTIVATE

One foundation. Many use cases.

Modernization. RAG. Conversational AI.
Testing. All connected.

05 — ACT

Discovery that connects to action.

Migration, testing, deployment — directly from the knowledge graph.

THE OUTCOME

From fragmented information to executable intelligence.

Faster AI activation. No heavy build.
Production-scale outcomes.

See Aiden Discover in action.

The enterprise AI intelligence foundation.
