AIDEN AI | AGENTSHUB — FINANCIAL SERVICES

Wealth. Credit. Service. FinCrime. Intelligently Automated.

Four AI agents. Four critical functions. One unified financial services platform.

Client-Facing Leave-Behind · Campaign: AI-Powered Financial Intelligence Platform

THE CHALLENGE

Financial services firms face compounding pressures across every function. Manual wealth advisory processes limit advisor scale and client growth. Credit decisions take weeks instead of hours, driving client attrition. Client service is reactive and costly, unable to get ahead of issues before they escalate. And financial crime is outpacing compliance teams — legacy monitoring drowning investigators in false positives while actual risk goes undetected. Legacy systems and fragmented tools leave firms exposed on performance, on risk, and on regulation.

THE SOLUTION

Aiden AI's **AgentsHub Financial Intelligence Platform** deploys four purpose-built autonomous AI agents — each operating across its domain end-to-end, sharing context across functions, and delivering outcomes that no single point solution can match. **Not AI assistance. Autonomous financial intelligence.**

FOUR AGENTS. FOUR FUNCTIONS.

💰	**Wealth Management Advisor** WEALTH INTELLIGENCE AGENT	Autonomous portfolio management, opportunity detection, tax optimisation, and personalised advisory at scale	**60% time saved**
🏦	**Intelligent Credit Decisioning** CREDIT INTELLIGENCE AGENT	Automated financial spreading, risk scoring, stress testing, and LLM-powered credit memo drafting	**70% faster**
👥	**Enterprise Client Service Hub** CLIENT EXPERIENCE AGENT	Omnichannel AI triage, autonomous resolution, proactive issue detection, and service orchestration	**92% CSAT**
🔒	**FinCrime Intelligence Platform** FINANCIAL CRIME DETECTION AGENT	AI transaction monitoring, AML detection, sanctions screening, and automated SAR drafting	**80% fewer FPs**

WHY AGENTSHUB

- **Four purpose-built agents** for the most critical financial services functions
- **Autonomous operation** — agents act, not just assist
- **Production-grade, enterprise-scale** deployment
- **Built-in compliance, audit trail,** and regulatory reporting
- **Multi-agent coordination** — shared context across functions
- **Proven** in banking, wealth management, and financial services

BUSINESS OUTCOMES

METRIC	IMPACT
